- **Journey around the medicine wheel, interact with horses in their herd and engage with nature providing a lived experience to build on strengths, face challenge with courage and compassion and experience the connection and interconnection of living systems of which we are an integral part.**
- **Create your own "traveling" medicine wheel with stones from the land**
- **Learn about The Medicine Wheel**

The Medicine Wheel or the Circle of Life, as it is sometimes called, is a central to the tradition of most indigenous peoples. Although specific aspects of the medicine wheel vary from tribe to tribe and culture to culture, the intrinsic meaning is shared. The Medicine Wheel represents the circle of life and carries wisdom from many perspectives to inform and bless our daily journey through life

The Medicine Wheel is both a sacred representation of life's journey and a practical system for maintaining balance and direction for the individual, the family and community

The Medicine Wheel is a map of discovery, balance, and healing. The wheel offers an integral map of the physical, emotional, cognitive, and spiritual realms.

The term medicine refers to one's wisdom, personal power, essence, and unique spark of the divine... To learn about, walk or pray the Wheel is to approach life from divergent perspectives and to integrate the wisdom and truth from each in our pursuit of wholeness.

There is no horse riding...the horseplay is an opportunity to learn more about you. The interrelated four directions in the circle of the Medicine wheel and the four forces of nature each offer us spiritual teachings and practical life lessons inviting intuition and inner wisdom and an awareness of our place of belonging in the family of life.

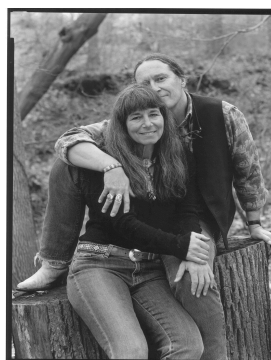

FEE: \$135.00
